 Do you wish to speak at the hearing? Yes

RECEIVED
 CITY CLERK
 C & C OF HONOLULU
 2016 JUN - 1 AM 8:37

Written
 Testimony

Aloha,
 Livable Hawaii Kai Hui remains in opposition to any action that would pull funding from the The Trust for Public Land and Maunalua Fishpond Heritage Center (MFHC) purchase of Kanewai Spring in Kuliouou. The community non profit MFHC has been caring out their vision and mission at Kanewai Spring for the past five years without one complaint. It was this non profit that discovered the need to protect this important cultural and natural resource and it was this non profit that developed a plan and executed it with community involvement. We were delighted to learn about the City Clean Water and Natural Lands Commission strongly recommending \$1 million in funding last year. Please stay the course set in motion years ago and know that any additional concerns can be addressed in the immediate future through the conservation easement. Our organization remains poised to kokua where and when needed. Mahalo
